AMERICAN PERFECTS NEW SEA - SALVAGING DEVICE.

Jesse W. Reno, of New York, has perfected a new ty pe of diving apparatus, which was successfully tested in raising the U. S. Coast Guard cutter Scally, sunk in Long Island Sound. The system consists of the use of a water tight chamber, mounted on caterpillar tractors, which is lowered overboard from a derrick lighter. The crew of this undersea tractor consists of two men. An electric cable furnishes light and power and enables the tractor to move over the bottom of the sea. In raising a sunken vessel the tractor is run alongside it, five inch drills are put through the side and holes bored in the wreck. Vertical pontoons are then lowered and bolted to the sides of the sunken vessel. After the pontoons are all in position air is pumped into them, and their buoyancy lifts the vessel to the surface.

"I am confident I would not be alive today if I had not taken Tanlac when I did," dclares Mrs. M. A. Thompson, of Atlanta, in telling of her remarkable restoration by the celebrated medicine,

"Tanlac has won my life-long praise for I firmly believe it saved my life," says Mrs. M. A. Thompson, 152 Cres cent Ave., Atlanta, Ga.

"I had not known what it was to be free from the tortures of indigestion hardly a day for sixteen years showers; also special chair for the tion hardly a day for sixteen years kiddles. Package candy free to the and frequently had such attacks I thought every moment would be my last. During all this sixteen years I sought relief from every source and finally gave up in despair. I had fallen off to a mere skeleton and thought I would just have to resign myself to my fate.

'As a last resort I bought a bottle of Tanlac and it helped me so much known as the "Golden Rule." I took two more bottles. It restored me so completely that I feel as well and strong as I ever did, even when ier than I was. There is nothing too good I can say for Tanlac." Tanlac is sold by all good drug-

State Christ an Endeavor convention which will meet in Gadsden April ! 12-15, is causing much interest, not only among those who are members but among all of the people of the city. There will be over 300 delegates from all parts of the state at the convention and plans for their entertainment are now completed.

In connection with the holding of the convention some of the outstanding facts in the history of the society will be of interest. The society was founded on the evening of February 2, 1881, by Reverend Francis E. Clark in the parsonage of the Williston Congregational Church, Portland, Me., of which he was pastor at that time. The United Society of Christian Endeavor was formed at the convention held in Old Orchard, Me., in July. 1886. In that year Dr. Clark became president of the United Society and from that time gave his whole life to the

The largest Christian Endeavor convention was that held in Boston in 1895 when more than 53,000 delegates registered. The first convention was held in Williston church, where the society was founded in 1882, with only six societies represented. Now Christian Endeavor has spread to every country on the globe and is found in about evangelical denominations. In most of these it is the only young people's society. Conventions of the World's Christian Endeavor Union have been held in Washington, Chicago, London and in Geneva, Switzerland and Agra, India. The United Society is supported solely by the sale of Christian Endeavor helps, without any dues or assessments from the societies. The official organ of the society is the Christian Endeavor World, which was established in 1886 and at the time was

The principles of Christian Endeavor are "Definite standards of service, and definite commitment to those a girl. I kept on gaining weight un- standards. Open confession of Christ, til I am now fifty-five pounds heav- and speaking for him according to ability and opportunity. The cultivation of the devotional life by regular prayer and Bible study. **WOCO PEP USED BY** CITY OF ATLANTA

We use to tell you what Woco Pep and Woco Motor Oil would do. After 18 months of experience we tell you what it has done and is doing.

We wash out crank cases

We are now handling Woco Anti-Chatter Oil for Ford Cars, It will absolutely stop your Ford from shimmying.

Officials Claim Savings Made First Month Run To Three Figures

The city of Atlanta saved 1,000 gallons of motor fuel, or \$250, during the first 28 days of March with the use of Woco-Pep motor fuel, according to word which has been received here by the Wofford Oil Company. On the strength of this showing, the Wofford company was awarded the contract for the city's motor fuel requirements during the month of April.

Reports tabulated by those operating the city's motor vehicles showed that not only had 1,000 gallons less of Woco-Pep been used during the month of March than during February, when another motor fuel other than Woco-Pep was used but also the form Pep was used, but also that four more cars had been operated during the month, and the huge slushers of the sanitary department had been operated three and one-half days more during the first 28 days of

the murderers and burglars, and not a poor woman who has lost her hus-band and is looking for another?"

Dancing Ants.

When unts are happy, according to me of the best known students of ant

life, they have a way of standing up

and making little skips, which muy correspond to our dancing.

May Be Something in This.

Next time you make a blob, and feel like cussing someone, don't pass

the buck, go out behind the barn and

give yourself a good bawling out. It may do some good.—Exchange.

quantity of the Proteins is important.

Grape-Nuts includes the excellent Proteins of the wheat, and the supply of Proteins is supplemented by the cream or milk with which Grape-Nuts is eaten.

The Proteins in Grape-Nuts are combined with a very desirable form of carbohydrates (the grain starches) which are partially predigested through the long, slow baking by which Grape-Nuts is made. In its easy and quick digestion and assimilation Grape-Nuts helps prevent the unfavorable in-

### Albany Business Men Win Three

The Albany Business Men annexed another victory last night when their team defeated the Machinist's bowl-

The first of the three games played, proved too exciting and sensational, as the margin of only one pin separated the teams. The last two games were, carier for the winners. The official

# PER CENT NORMAL

MONTGOMERY, Ala., April 12.-The condition of winter wheat in Alabama on April 1 was 82 per cent of normal, as reported by the Alabama Crop-Reporting Service in statement issued by F. W. Gist, agricultural statistician. This condition indieates an acre yield of about 10 bushels. The acreage sown to wheat last fall was estimated to be about 19,000 the crop being grown in only a fev counties. The present condition of fall sown oats is 81. Both oats and wheat conditions are below the average for former years at this date, and is thought to be due to unfavorable win-ter weather. Some winter killing was experienced in the northern counties, and the growth is not the best in any

The number of breeding sows on Alabama farms on April 1 is estimated to be 206,000, or 98 percent of the number on farms a year ago.

The supply of farm labor is reported as 81 per cent of normal, comin 1921, 70 in 1920, and 85 in 1919. poses is reported as 93 percent of normal, compared with 87 percent last year, 81 in 1921, 110 in 1920, and 105 in 1919. The ratio of supply to demand expresses the extent of shortage or surplus. The ratio at this time is 94, compared with 110 last year, 117 in 1921, 64 in 1920, and 81 in 1919. The conclusion is, therefore, that the supply labor is 6 percent short of the demand. In the aggregate not . Sreat deal of hired labor is used . Alabama farms, most of the work being accomplished by tenants. The supply of tenants for the current season is reported as 92 percent of that of last year. Reports received at the same time

indicate that the number of plows intended to be operated this season is one percent greater than the number operated last season and that the total acreage intended to be planted this year to all crops is three percent greater than last year, The greatest increase is found in the blackbelt counties, where plows are to be increased about 8 percent and the total acreage about 9 percent. The acreage north of the blackbelt will apparently be about the same as last year, while south of that section it will be decreased. OF

NOTICE OF ANNUAL MEETING OF STOCKHOLDERS OF THE ALA-

BAMA WATER COMPANY. 43,326.95 Notice is hereby given that the regular annual meeting of the steckholders of the Alabama Water Company will be held in the office of the Company in Albany, (formerly New Decatur) Alabama, on Wednesday, April 18, 1923, at 11 o'clock a. m. at which time the company will elect the Board of directors and transact such other business as may properly ome before the regular annual meeting of stockholders of a corporation in Ala-

Jno. B. Weakley, President.

# More Irish Leaders Several Injured

George Beban in The Sign of the Rose

(Associated Press.) LONDON, April 12.—It is reported in Clonmel that Count Punkett, Countess Markievicz, Miss Mary McSwiney and the late Liam Lynch's brother were captured by Irish national troops in Tipperary today, says an Exchange telegraph dispatch from Dublin.

Details of this report by counties will, be published in the current issue of the Alabama Markets Journal and Crop Report.

F. W. Gist,

Agricultural Statistician.

# Reported Captured As Storm Hits City

(Associated Press.) ALEXANDRIA, La., April 12 .-Several persons were injured, 15 houses wrecked and other damage was done when a tornado struck Meridian, La., a saw mill town, 30 miles south of here early today, according to meagre reports reaching here.

Problem Solved. A. J. E. writes: "Your reply to W. U. solves my problem. Ten days ago I made a trip, feeding our eighteen-months-old child kept hot in a vacuum bottle for six hours,"-Syracuse Post-

much better for children than so much sweets. They satisfy a natural craving for something between meals and you needn't worry about them eating too much of this good wholesome food. Bread and rolls are always lighter and more directible when ways lighter and more digestible when made from Sauers Infallible, At your grocer's.

# Very Interesting Are The Selections

Here in Materials and Fineries for the Making of Spring Attire

To the woman who dotes on doing her own sewing and doing it like she wants it done, our assortments will be of the greatest assistance. Everything necessary to the completion of your dresses will be found here. Seasonable fabrics with trimmings to match. They all represent a moderate expenditure by the prices we name.

SUGGESTION NO. 1.

40 Inch Paisley, beautiful designs, fair assortment, all silk and a fabric that you will appreciate. Used for full dresses, blouses, trimmings or for the popular bandana that is so nice in many ways.

Specially Priced at \$2.98 the Yard. 36 Inch Paisley, part silk and mercerized, a nice and inexpensive cloth for the same purpose.

Specially Priced at \$1.48 the Yard SUGGESTION NO. 2

Imported Tissue Ginghams of a very dainty cloth. Women have good reason to favor this lovely fabric. Its beautiful colorings and dainty texture make it likeable above all other cloth for Spring and Summer Frocks. Dresses you will wear with ever increasing pride on all occasions. They come from the Laundry fresh and crisp.

Specially Priced at 58 Cents the Yard SUGGESTION NO. 3.

Domestic Tissue Ginghams, hardly different from the imported, colors just as rich and beautiful, but smooth. Priced at the yard 43 Cents

Colored Edgings and Medalions to match, which makes beautiful trimming.

SUGGESTION NO. 4. 36 Inch Ratine, all wanted colors, the fabric that has been so popular for the past two

seasons, just as good again. Priced at 58 Cents the Yard

SUGGESTION NO. 5. We take pride in our showings of Ginghams in all the grades. Beginning with the M. F. C. at 28 cents, down to a line at 15 cents, the various colors are here. These are "washable" wash goods.
